

LEARNING EXPERIENCE OVERVIEW

JA Career Success[®]

■ Work and Career Readiness

JA Career Success is an engaging and comprehensive program that introduces teens and young adults to the workplace. As interns, they participate in realistic work experiences in multiple departments of a fictional company, Orbit Boom. The learning experience teaches soft skills and business practices in the context of realistic scenarios and assignments.

The learning experience is part of the JA Work and Career Readiness Pathway and is designed for Grades 9–12 and post-high school. Session One and Seven are recommended to introduce the scenarios and sum up the learnings, respectively. The other sessions can be presented in any order. The default Instructional Contact Hours is 7 with a variable range from 8–16 hours.

Ten optional career development self-guided activities, with lean Guides for Volunteers and Teachers are available for in-class use. An optional advanced independent project, Effective Communication, requires the creation of artifacts, to extend learning.

LEARNING EXPERIENCE HIGHLIGHTS

- A unique STEM-rich business environment, complete with contextual information and assignment in departments ranging from Information Services and Logistics to Sales & Marketing
- Opportunities to work on solutions to an array of business problems, brainstorm new product ideas, and work in collaboration with others
- A digital employee handbook with valuable information about corporate policies and practices
- This flexible volunteer- or educator-led program consists of seven core 45-minute modular sessions, plus one or two optional Extended Learning Opportunities per session
